

A woman with long, wavy brown hair is seen from the back, sitting on the white edge of a boat. She is wearing a wide-brimmed straw hat with a brown cord tied around the crown and a two-piece bikini with a pink and white floral pattern. She is looking out over a vast expanse of turquoise ocean under a clear blue sky. The horizon is visible in the distance.

Welcome to the 2007 issue of the Key West Hat Company catalogue. We have been offering the western-style drifter hats for over a decade. Our unique look has traveled the world, increasing in popularity, so much so that they are often imitated – but never duplicated. Make no mistake, our hats are the original. They are not only functional, they are fashion with a Key West flair! Feel free to call one of our sales specialists if you have any questions. Our inventory will be growing as we expand our line, so visit our website www.KeyWestHatCompany.com to view the latest styles and inventory. We look forward to satisfying your headwear needs – Key West style.

Special thanks to Mark Lewis for his extraordinary photographs printed within this catalogue. The weekend we scheduled the photo shoot, a little hurricane called Wilma blew through. His ingenuity, adapt thinking and talent saved the shoot.

Special thanks also goes to our models, many of whom were called upon the very day of the photo shoot due to the hurricane preventing others from flying in. Kim, Jackie, Elena, Barbara, Tyler, Melinda, Aaron, J.D. – you all look fabulous!

All Key West drifters are made from natural straw. The dressings used to make a Key West drifter are as advertised. We use real jasper, turquoise, onyx, amethyst, bone, horn and many others. They are not faux stones as many other headwear companies use today. These are the real thing. All stained hats have a sealer applied after staining to help protect your hat. Please keep in mind, straw is a natural fiber and cannot stand up to inclement weather regardless of prior preparation. In other words, we recommend you keep your hat dry and not wear it in the rain.

The individuality of the Key West drifter is what makes it so desirable. Although hats may be of the same pattern or style, no two are exactly alike. Much like our beautiful island of Key West, similar to some of the other Florida Keys, but one-of-a-kind.

AFTERNOON TEA HIGHLIGHT

The **Afternoon Tea Highlight** is one of our best sellers. The Tea colored stain accents the focal points of the drifter. The contrast between natural straw and the Tea Highlight gives this drifter a very distinctive look. The Tea Highlight drifters are available with or without a leather stampede strap. All of these drifters are finished with genuine gem stones or bone and horn dressings. All come with a one-size stretch band. *Is it Tea for you?*

Shown above (left) with a **Bone Dressing** accessory band and leather stampede strap (TH2-BONE-B), and (right) with the **Turquoise** **BEST SELLER** accessory band (TH1-TUR).

All Afternoon Tea drifters are finished with genuine gem stones or bone dressings and come with a one-size stretch band. See accessory options on next page, and on other pages within this catalogue.

BROWN-EYED GIRL MILK CHOCOLATE

The **Brown-eyed Girl** drifters are stained to a darker brown shade much like milk chocolate. The darker finish gives the drifter a robust finish that radiates the light. The stain pattern on these drifters will vary throughout the hat. Some sections will appear more accented than others helping to contribute to the individuality of each drifter. The chocolate/brown finish really highlights many of the dressings that come on this model. *Are you craving some chocolate?*

Shown above (left) a Brown-eyed Girl Drifter with a **White Howlite** **BEST SELLER** accessory band and leather stampede strap (SB2-WHI), and (right) a Drifter with a **Picture Jasper** **BEST SELLER** accessory band (SB1-PJA).

All Brown-Eyed Girl drifters are available with or without a leather stampede strap. All are finished with genuine gem stones or bone dressings and come with a one-size stretch band. See accessory options on previous page, and on other pages within this catalogue.

LIGHTER SIDE OF BROWN

All Lighter Side of Brown drifters are available with or without a leather stamped band. All are finished with genuine gem stones or bone dressings and come with a one-size stretch band. Available accessories are shown on the next page and can also be selected from any page within this catalogue.

The **Lighter Side of Brown** drifters are finished to a light brown stain finish. The color varies throughout the hat as certain parts of the hat will appear more accented than others. The color is light, but solid throughout. One of the stained finishes that appeal to those who like unique headwear. *Do you want to try the lighter side?*

Shown with a stamped band and a **Cowrie Shells** **BEST SELLER** accessory band (LB2-COW) and without a strap with a **Picture Jasper** accessory band (LB1-PJA).

The **Black-Out** drifters are painted black, not stained. The finish will gradually wear on these drifters as time passes. The black finish will give way to the natural straw below it and the hat takes on a “stressed appearance.” It adds to the uniqueness of the hat, many people will scratch or rough up these drifters to expedite the look. A top seller with the many bikers that visit Key West each year. *Are you ready for some biker black?*
